

ADDITIONAL INFORMATION ON BORROWING COSTS

Advance Retirement Suite Super & Pension – Closed to new members

Issued: 1 July 2020

Borrowing costs

Borrowing costs are costs that relate to a credit facility that is not a derivative financial product that is provided to the super fund trustee, or an interposed vehicle or a trustee of an interposed vehicle in or through which the property of the super fund is invested.

These costs include but are not limited to costs to fund the purchase or borrowing of an asset, such as interest, establishment fees, administrative fees and government charges.

Indirect borrowing costs for the investment options are paid out of the relevant underlying fund's investments and reflected in the unit prices. They are an additional cost to you but are not charged directly as a fee.

Our estimate of these costs for all options for the financial year ended 30 June 2020 are outlined in the below table.
